

## Directions for Peer Pyramid Quiz!

- Each student will have their personal vocabulary descriptions sheet, and a sheet of teacher descriptions (provided in step 1 and 2 resources)
- They will be partnered up however the teacher sees fit
- One student will start by giving easy one-word descriptions from their vocabulary words to the other student. After 5 minutes has passed switch roles.
- Each pair of students will have a pyramid to try and work their way up. Each time a word is answered correctly place a chip on it! (Pyramid is linked in step 5)
- If they stumble on a word, skip to another. Have one student work from the top down of the list, and the other from the bottom up
- When the 10 minutes is up you can see which pair got the farthest up the pyramid!

Students will have fun in this simple classic Pyramid Game! Remember to monitor so students are getting the full practice of vocabulary words!
